Descritivo Técnico

Feature	ProSupport Plus
Remote technical support	24x7
Covered products	Hardware Software
Onsite hardware support	Next business day or 4hr mission critical
3rd party collaborative assistance	•
Automated issue detection & proactive case creation	•
Self-service case initiation and management	•
Access to software updates	•
Priority access to specialized support experts	•
3rd party software support	•
Assigned Technology Service Manager	•
Personalized assessments and recommendations	•
Semiannual systems maintenance	•

SERVICE FEATURE	DESCRIPTION	PROSUPPORT PLUS—COVERAGE DETAILS
GLOBAL TECHNICAL SUPPORT	<p>Customer contacts Dell EMC by telephone or web interface on a 24x7 basis to report an Equipment or Software problem and provides input for initial assessment of Severity Level.</p> <p>Dell EMC provides (i) a response by remote means using a senior level Dell EMC technical support resource for troubleshooting assistance based on the Severity Level of the problem; or (ii) when deemed necessary by Dell EMC, Onsite Response as described below.</p>	Included.
ONSITE RESPONSE	Dell EMC sends authorized personnel to Installation Site to work on the problem after Dell EMC has isolated the problem and deemed Onsite Response necessary.	<p>Included for Equipment only.</p> <p>Initial Onsite Response objective is based on the option purchased by the Customer. The options available to the Customer are the following: either 1) a four-hour service response during the same business day, or 2) a service response during the next local business day, during normal business hours, after Dell EMC deems Onsite Support is necessary.</p> <p><u>4-Hour Mission Critical On-site Response</u></p> <p>Typically arrives on-site within 4 hours after completion of telephone-based troubleshooting.</p> <ul style="list-style-type: none"> • Available seven (7) days each week, twenty-four (24) hours each day - including holidays. • Available within defined four (4) hour response locations. • 4 Hour parts locations stock essential operational components, as determined by Dell EMC. Non-essential parts may be shipped using overnight delivery. • Ability to define if the issue is a Severity 1 upon remote supports initial diagnosis • Critical situation procedures - Severity level 1 issues are eligible for quick Escalation/Resolution Manager and "CritSit" incident coverage. • Emergency dispatch - onsite service technician dispatched in parallel with immediate phone-based troubleshooting for Severity 1 issues. <p><u>Next Business Day On-site Response</u></p> <p>Following telephone-based troubleshooting and diagnosis, a technician can usually be dispatched to arrive on-site the next business day.</p> <ul style="list-style-type: none"> • Calls received by Dell EMC after local cutoff at Customer site local time may require an additional business day for service technician to arrive at Customer's location. • Available only on select models of Products. <p>Onsite Response does not apply to Software and may be separately purchased.</p>

*SEVERITY LEVEL DEFINITIONS

SEVERITY 1 Critical – loss of ability to perform critical business functions and requires immediate response

SEVERITY 2 High – able to perform business functions, but performance/capabilities are degraded or severely limited.

SEVERITY 3 Medium/Low – little to no business impact.

REPLACEMENT PARTS DELIVERY	Dell EMC provides replacement parts when deemed necessary by Dell EMC.	<p>Included. Replacement parts delivery objective is based on the option purchased by the Customer. The options available to the Customer are the following; either 1) a four-hour service response during the same business day, or 2) a service response during the next local business day, during normal business hours, after Dell EMC deems that a replacement part delivery is necessary</p> <p>Local country shipment cut-off times may impact the same day/next local business day delivery of replacement parts.</p> <p>Installation of all replacement parts performed by Dell EMC as part of Onsite Response, but Customer has option to perform installation of Customer Replaceable Units (CRUs). See Dell EMC Product Warranty and Maintenance Table for listing of parts designated as CRUs for specific Equipment or contact Dell EMC for more details.</p> <p>If Dell EMC installs the replacement part, Dell EMC will arrange for its return to an Dell EMC facility. If Customer installs the CRU, Customer is responsible for returning the replaced CRU to a facility designated by Dell EMC.</p>
PROACTIVE SOLID STATE DRIVE REPLACEMENT	Included for Storage and Converged Products. If the Endurance Level (as defined below) for any solid-state drive prior to the device reaching its full capacity or less (as determined by Dell EMC) the Customer is eligible to receive a replacement solid state drive. Endurance Level means the average percentage of life span remaining on the eligible SSD.	<p>Included.</p> <p>Response objective is based on the applicable Replacement Parts Delivery and Onsite Response service features detailed above. Customer must activate and maintain the currently supported version(s) of SupportAssist and/or Secure Remote Support software during the applicable term of support. SupportAssist and/or Secure Remote Support enablement, as applicable is a prerequisite for these additional renewal service features.</p>
RIGHTS TO NEW RELEASES OF SOFTWARE	Dell EMC provides the rights to new Software Releases as made generally available by Dell EMC.	Included.
INSTALLATION OF NEW SOFTWARE RELEASES	Dell EMC performs the installation of new Software Releases.	<p>Included for Software which Dell EMC determines is Equipment operating environment Software⁵ and only when the associated Equipment into which the operating environment Software is being installed is covered by an Dell EMC warranty or then current Dell EMC maintenance contract. Equipment operating environment Software is defined as software programming and/or microcode firmware needed to enable the Equipment to perform its basic functions, and without which the equipment cannot operate.</p> <p>Customer performs the installation of new Software Releases of Software (that is, Software not classified as Equipment operating environment Software, or Equipment operating environment software that is deemed by Dell EMC to be self-installable), unless otherwise deemed necessary by Dell EMC.</p>

24X7 REMOTE MONITORING AND REPAIR	<p>Certain Products will automatically and independently contact Dell EMC to provide input to assist Dell EMC in problem determination.</p> <p>Dell EMC remotely accesses Products if necessary for additional diagnostics and to provide remote support.</p>	<p>Included for Products that have remote monitoring tools and technology available from Dell EMC.</p> <p>Once Dell EMC is notified of a problem, the same response objectives for Global Technical Support and Onsite Response will apply as previously described.</p>
24X7 ACCESS TO ONLINE SUPPORT TOOLS	<p>Customers who have properly registered have access on a 24x7 basis to Dell EMC's web-based knowledge and self-help Customer support tools via the Dell EMC Online Support site.</p>	<p>Included.</p>
TECHNOLOGY SERVICE MANAGER ("TSM")	<p>The ProSupport Plus for Enterprise assigned TSM is a remote resource that provides a wide range of system, environmental and account management features and capabilities designed to reduce downtime and improve the overall support experience from Dell EMC.</p> <p>Included with the Service:</p> <p><u>Onboarding assistance:</u> Ensuring the customer is fully enabled to receive the ProSupport Plus service by:</p> <ul style="list-style-type: none"> ➤ Verifying the accuracy of relevant Customer support information such as account name, address, etc. ➤ Providing knowledge transfers such as how to contact Dell EMC to open service requests and use of Dell EMC support tools and technologies ➤ Designating schedule for TSM deliverables such as reporting and service reviews <p><u>Monthly Reporting:</u> Reporting and recommendations on entitled systems including:</p> <ul style="list-style-type: none"> ➤ Summary of open and closed service requests by month; ➤ Verification of currently installed system software versions against target code recommendations; and ➤ Contract status, including start/end dates and other basic contract details. <p>In order to fully enable monthly reporting, Dell EMC connectivity technologies such as SupportAssist and/or Secure Remote Support must be installed with the appropriate log collection options enabled</p>	<p>Included on Products covered by ProSupport Plus for Enterprise service or then current maintenance contract during Dell EMC's normal local business hours which may vary by region and country, excluding Dell EMC and local holidays. See additional Coverage Details below.</p> <p>Dell EMC is responsible for performing only the TSM activities and tasks expressly specified in this document. All other tasks, activities and services are out of scope.</p>
TECHNOLOGY SERVICE MANAGER ("TSM") CONTINUED	<p><u>Service Review:</u> The TSM provides a service review of the details in the Service Report. Schedule, timeframe and other topics to be reviewed will be determined between the TSM and the Customer during Onboarding.</p> <p><u>System Maintenance:</u> For entitled assets, the TSM will assist Customer in coordinating delivery of System Maintenance events within the Customer's maintenance window. See below for additional information.</p> <p><u>Dell EMC Escalation Support:</u> Acting as the Services liaison to coordinate all resources necessary to address individual Severity 1 issues or more systemic problems.</p>
